

THE WHSAA:

The WHSAA is a service and regulatory organization designed to coordinate the efforts of the member schools toward the ultimate objectives of interscholastic activities. Unification through the WHSAA provides the means for member schools to cooperate in protecting and enhancing their interscholastic programs to more effectively serve students.

The WHSAA believes that interscholastic activities programs are essential to the education of youth, and therefore, are an integral part of the school curriculum. By promoting activities, the WHSAA establishes its belief that Wyoming youth gain immeasurable values from these programs and reaffirms its conviction that excellence in education can be achieved through activities.

PURPOSE:

“ON YOUR MARKS – GET SET – GO!” is designed to get the new and veteran administrator off to a positive and successful start to the school year. This orientation will provide information that will assist in keeping each school district in good standing with the WHSAA by knowing and understanding the rules and regulations for both students and schools.

GOALS:

- To provide a framework for ensuring a successful school year.
- To provide samples which address major administrative responsibilities.
- To provide a forum for discussing issues that are pertinent to administrators.
- To establish an opportunity for on-going networking.
- To relieve anxieties and lower stress levels.
