The organizational structure of the **BOARD OF DIRECTORS** is such that in order for most items to be considered by the Board, they must first be discussed at the district level. There are four districts within the state that meet regularly to discuss such items prior to a meeting of the WHSAA Board of Directors.

Regular meetings of the Board of Directors are scheduled in September, November, February, and April. The Board of Directors will consider all proposals provided they have met the following deadlines in order to be considered at the next appropriate round of district meetings:

September 1st for the First round of district meetings

October 1st for the Second round of district meetings

January 1st for the Third round of district meetings

March 1st for the Fourth round of district meetings
